

SECOND DIANALUND INTERNATIONAL SYMPOSIUM
LENNOX-GASTAUT SYNDROME AND RELATED DISORDERS

Friday, 9th November 2007
Dianalund

Dear Colleagues

It is a pleasure to invite you to this important and interesting meeting covering diagnosis, natural history, evolution and treatment aspects of the Lennox-Gastaut syndrome and related disorders (myoclonic-astatic epilepsy and frontal lobe epilepsy with secondary bilateral synchrony).

It is also a great pleasure to announce the speakers Professor Ulrich Stephani, Dr. Eylert Brodtkorb and Dr. Hannu Heiskala. All three of them are distinguished epileptologists.

Prof. Ulrich Stephani, director of the Neuropaediatric Clinic, University of Kiel, Germany, the famous European expert in childhood epileptology, especially benign partial epilepsies, encephalopathy with CSWS and other epileptic encephalopathies in children.

Dr. Eylert Brodtkorb, Trondheim, Norway, is one of the most distinguished neurologists in the field of epilepsy. His primary areas of research activity is epilepsy and mental retardation and genetics of epilepsies.

Dr. Hannu Heiskala, Department of Child Neurology, University of Helsinki, is the known neuropaediatrician, whose thesis was devoted to Lennox-Gastaut syndrome.
