

# **Status Epilepticus – Mechanisms and Treatment**

**Professor Matthew Walker**

**Head of Epilepsy Laboratory**

**Department of Clinical and Experimental Epilepsy**

**The Institute of Neurology, London**

**Friday 16<sup>th</sup> May 2008**

**Lecture Theatre, Aalborg Hospital *South***

**(Auditoriet i forhallen, Aalborg Sygehus *Syd*)**

**Seminar secretary:**

**Tove Rønn (+45) 9932 1949**

**E-mail [t.roenn@rn.dk](mailto:t.roenn@rn.dk)**

Department of Neurology at Aalborg Hospital, Aarhus University Hospital, are pleased to invite doctors and nurses to this afternoon seminar with a focus on the clinical aspects of mechanisms in and the treatment of Status Epilepticus (SE).

## Programme

13.00 - 14.00	Mechanisms in SE (primarily convulsive SE)
14.00 – 14.15	Coffee/tea
14.15 – 15.15	An evidence based approach to the treatment of SE

Professor Walker's research interests include understanding of brain physiology, the mechanisms underlying epilepsy, and the treatment and consequences of prolonged seizures.

Please sign up for attendance via e-mail to [t.roenn@rn.dk](mailto:t.roenn@rn.dk) .
